

Sweet Romance!

Sweet Romance - By LeAnn McGuinness

One of LeAnn's many talents is creating works of art with mini chocolate bars. The whole office can enjoy a cute design like this one. When we recently visited her shop to photograph the designs in this issue, she was working on a ferris wheel for a charity raffle.

This was built out of plywood and literally covered in chocolate bars, with movable parts! We'll make sure to get pictures from her so you can see the end result!
